Talk about the work, next to the work

Channels, direct messages, and threads for the team — plus discussions attached directly to the order, ticket, or customer being discussed.

THE PROBLEM

Why it exists

Team chat tools keep every decision in a channel that nobody can find six months later. Rutba Chat keeps the general conversation in channels and the specific one on the record it concerns — so the reason you discounted that order is on the order, not in a scroll-back.

FIT

Who it is for

- Teams coordinating day to day
- Businesses tired of decisions lost in chat history
- Anyone wanting conversation attached to real records

APPS IN THIS PRODUCT

What you get

Chat

Channels, DMS, and record threads - one of the three surfaces in the Rutba Comms app, alongside Meet and Calls.

WHAT IT DOES

Capabilities

- Channels, direct messages, and threaded replies
- Discussions attached to orders, tickets, and customers - with deep links both ways
- Searchable history, read state, presence, and mentions with directory autocomplete
- Edit and delete with revision history, so a withdrawn message says so on the record
- Retention policy and compliance export per organization
- Membership driven by your organization roles

Plans and pricing

PLAN		
	PRICE	INCLUDES

Business	\$9 per user / month	Unlimited history; Discussions on records; Guest access; Advanced search; Compliance export

Worth knowing

Chat, Meet and Calls share one front end, so buying any of them puts the same app in front of your team with the surfaces you are licensed for. Still landing on Chat: message reactions, file uploads through Drive, and email notification of mentions.

RUTBA SUITE

How it fits the rest of the suite

Rutba Suite is 20 products across three lines — the business suite, the workspace and the platform services underneath — sharing one customer list, one catalog and one set of books. Buy the one you need today; the rest slot in without a migration.
