Document	Rutba Fleet datasheet
Generated	16 October 2026
Online	https://www.tech-style.co/docs/rutba-fleet-datasheet

Every vehicle legal today, and what each one costs to run

Vehicles and their operating profile on the asset register, drivers and licences, walkaround checks and defects, duty and hours, fuel and energy, incidents, and cost per kilometre.

Family	Rutba Suite
Category	Fleet management software
Status	Early access
Apps included	1
Requires	Rutba Facilities
Works with	Rutba Orders, Rutba Facilities, Rutba Books
Buy or trial	rutba.io/suites/fleet

THE PROBLEM

Why it exists

A fleet manager's questions are compliance and cost, not today's parcels: what is due, what is off the road, what did fuel cost per kilometre. Rutba Fleet answers them on the same asset register the accountant depreciates from, so a vehicle is one record with a legal status, a driver, a fuel line and a cost, not four spreadsheets that disagree about the registration.

FIT

Who it is for

- Firms that run vehicles and deliver nothing: plant hire, care providers, builders
- Distributors whose vans are also their delivery fleet
- Any operator that has to prove driver hours and walkaround checks

APPS IN THIS PRODUCT

What you get

Fleet

Vehicles and their operating profile, drivers and licences, walkaround checks and defects, duty and hours, fuel, incidents, cost per kilometre.

WHAT IT DOES

Capabilities

- The vehicle profile on the asset register, with no second vehicle table
- Drivers, licences and the checks they are due
- Walkaround checks and defects from the cab
- Duty and hours for driver-hours compliance
- Fuel and energy per vehicle, and cost per kilometre
- Incidents, with the evidence attached
- A failed walkaround raises a maintenance request and can take the vehicle off the road; the workshop's finished order clears the defect
- Dispatch refuses a trip for a vehicle off the road or a driver without a valid licence
- Drivers record their own walkaround, fuel and defects from the staff app

COMMERCIAL

Plans and pricing

PLAN	PRICE	INCLUDES
On request	Custom per vehicle / month	Vehicle profiles on the asset register; Drivers, licences, checks and defects; Duty and hours; Fuel and cost per kilometre

Prices are in US dollars and exclude local taxes. Every plan is billed through rutba.io/suites/fleet. Annual and multi-product pricing is available on request.

Worth knowing

Early access. Running today: vehicles on the asset register, drivers and licences, walkaround checks and defects, duty and hours, fuel and incidents. Not yet: due-date reminders, and a running cost that includes servicing and depreciation. Priced on request for now, and onboarding is hands-on. It needs the asset register from Rutba Facilities, where the vehicle lives.

RUTBA SUITE

How it fits the rest of the suite

Rutba Suite is 23 products in three lines (the business suite, the workspace and the platform services underneath), sharing one customer list and one set of books. Buy the one you need today and add the rest later without a migration.

Rutba CRM

Rutba Marketing

Rutba Commerce

Rutba Inventory

Rutba Orders

Rutba Manufacturing
