THE PROBLEM

Why it exists

Cloud camera services charge monthly to store your footage on someone else's disk, and stop working the moment the internet does. Rutba Vision runs on a box in your building: recording continues through an outage, footage never leaves the site, and the only thing that talks to us is the licence check — which itself tolerates being offline.

FIT

Who it is for

- Retail sites and warehouses with existing IP cameras
- Businesses that cannot send footage off-site for policy reasons
- Anyone tired of per-camera cloud recording fees
